

U Protect Wired Mat 4.0 Alu1

U Protect for fire, thermal and acoustic insulation of ventilation and smoke extraction ducts

U Protect WM 4.0 is part of ISOVER solutions for providing fire resistance in HVAC applications by using high performing ULTIMATE mineral wool

U Protect wired mats provide fire resistant, an easy to install, lightweight and efficient thermal and acoustic insulation solution in HVAC for circular and rectangular ventilation and smoke extraction ducts up to EI 120.

Installation guidelines must be followed and all ISOVER U Protect components used.

THERMAL INSULATION

High class insulation keeps the medium temperature as designed and secures system operating with minimal losses

FIRE RESISTANCE

Passive fire protection system

SOUND INSULATION

The ability of mineral wool to act as a spring results in reducing vibration and noise emissions in industrial processes

FAST INSTALLATION

Thanks to its light weight and high flexibility, it can be installed by one person without any special equipment
